#### **Benefits:**

##### **UTM is an Emerging Trend in Network Security**

Gone are the days when a dedicated firewall is sufficient to fend off hackers from cooperate networks. Unified Threat Management (UTM) is an emerging trend in the network security appliance market. Always on the cutting edge ISA5-UTM series utilizes a separate offload processor to increase performance and throughput. This technology introduces a new all-in-one network security device that provides edge based content filtering, anti-virus, anti-spam and intrusion detection services.

##### **High-performance All-in-one Design**

From a business perspective, IT managers should consider an "enterprise approach" for comprehensive security. They can now utilize all-in-one appliances, such as the 8-in-1 UTM solution, for solid protection and performance. All of the following features are now offered in one box and controlled through a single unified interface: Anti-Virus, IDP, Anti-Spam, Firewall, VPN, Bandwidth Management and Content Filtering.

##### **Upgradeable Design with ISA5 UTM Turbo Card within 6-Steps**

In an increasingly complex network environment an integrated UTM device provides streamlined management efforts, easy installation, and multiple layers of network protection.

#### **HIGHLIGHTS**

- > 80 Mbps firewall throughput
- > Supports up to 10 IPSEC VPN tunnels
- > Full Feature NAT
- > Edge based network security

## ISA5 UTM ROUTER

1. Select Product & Options from Row(s)		2. Pick this and	3. A or B		4. Or, Exclusive Plus Plans
Pick rows	<b>ISA5 UTM - Internet Security, Gateway Unified Threat Management Router</b>	Purchase	A. Year PIA Maintenance	B. Monthly Maintenance	Plus Plan Monthly Rental & Maintenance
H.	Base Pricing - ISA5 UTM Router	\$739.00	\$149.00	\$20.00	\$94/Mo.
C.	Basic Router Configuration & onsite setup of unit as Cable/DSL/WAN Internet Router	\$120/hr.	\$24.00	\$12.00	\$22/Mo.
C.	Firewall Configuration (Servers or Customer Options extra)	\$120/hr. +/- 4 hr. \$480.00	\$96.00	\$12.00	\$60/Mo.
C.	VPN Configuration Option per Tunnel/Site	\$120.00 EA	\$24.00	\$12.00	\$22/Mo.
U.	A) Internet Content Filtering setup ( <i>one time</i> ) & Annual ICF Subscription/Signature Service	\$120.00 \$199.00	\$40.00	\$12.00	\$41.95/Mo.
U.	B) IDP & Antivirus Setup,(one time) & Annual AV/IDP Signature Subscription Service	\$120.00 \$399.00	\$80.00	\$15.00	\$55/Mo.
U.	C) Antispam Setup,(one time) & Annual AS Signature Subscription Service	\$120.00 \$160.00	\$32.00	\$12.00	\$45/Mo.
U.	Optional: Remote Security Client Agent VPN Client for MS-Windows and one time Set up fee. OS,XP,Vista,Win7	\$120.00 \$199.00	\$18.00	\$12.00	\$22/Mo.

### FEATURES:

#### Virtual Private Network

- > 10 simultaneous IPsec VPN Connections available
- > Max. 25Mbps 3DES/AES VPN performance
- > Manual Key, IKE and PKI(X.509)
- > IPsec NAT Traversal

#### Firewall Security

- > Transparent Firewall (bridge mode) 80 MB throughput
- > Stateful Packet Inspection
- > DoS and DDoS Protection
- > Real-time Attack Alert and Logs

#### Traffic Management

- > Policy-based Traffic Shaping
- > Priority-bandwidth Utilization
- > Guaranteed and Maximum Bandwidth Allocation

#### Content Filtering

- > Java/Active X/Cookie/Proxy Blocking
- > URL and Keyword Blocking
- > Web Content Filtering (Cerberian)

#### Antivirus / IDP

- > Virus, worm Trojan, backdoor, buffer overflow, port scan P2P, IM, web attack protections. Auto scheduled updates, real-time attack Alerts and Logs

#### AntiSpam

- > SPAM, Phishing prevention, White/Black List, SMTP, support

#### Traffic Management

- > Guaranteed/Maximum Bandwidth, policy based traffic shaping, priority bandwidth utilization

#### Network

- > DHCP client/relay/server
- > PPPoE
- > PPTP

#### System Management

- > WebGUI (HTTP and HTTPS)
- > Command Line Interface (Console, Telnet, SSH)
- > Firmware Upgrade (WebGUI, TFTP/FTP/SFTP)
- > Vantage Centralized Network Management

#### Logging/Monitoring

- > Centralized Logs, Attack Alerts, System status monitoring
